OVERVIEW OF THE TOUR

We are proud to announce the nationwide event: *The Inclusive Excellence Tour™*.

The Inclusive Excellence Tour™ is a chance to strengthen your organization's diversity commitment by engaging your entire community in a conversation about diversity, equity, inclusion, and change, with Dr. Damon A. Williams, one of the nation's most experienced leaders, scholars, and educators in this area.

He is a best-selling author whose research launched the *Inclusive Excellence Model in American Higher Education*, and his foundational books *Strategic Diversity Leadership* and *The Chief Diversity Officer* have become the North Star guidance of CDO's and diversity champions everywhere.

A generational leader, he has been featured at more than 500 meetings and directly shaped the STEM, college access, leadership development, wellness, and workforce development experiences of 4 million diverse youth globally as the Senior Vice President and Chief Education Officer for the world's largest youth development organization, The Boys & Girls Clubs of America.

More than a scholar and thought leader, he has led at all levels of the *Strategic Diversity Leadership Movement*, providing supporting and executive leadership impacting colleges and universities, Fortune 100 companies, government, and community organizations, driving diversity, equity, inclusion, and corporate responsibility efforts throughout his 20-year career leading change.

WHY THE TOUR?

1. To create a more powerful *#StrategicDiversity LeadershipMovement* to drive diversity, equity, inclusion, leadership development, and understanding.
2. To motivate executives, leaders, students, and faculty to become more engaged in the work of *Inclusive Excellence*;
3. To provide evidenced based resources, tools, national best practices, and guidance to strengthen *Strategic Diversity Leadership* skills and quicken the pace of change.
4. To future proof organizations for the generation trailing the *Millennials*, the *Centennials*, a generation born after 1997, who is more diverse, digitally intuitive, and socially engaged than any generation previously.
5. To bridge the gap between the higher education, k-12, corporate, government, and non-profit communities by *creating an eco-system perspective* that inspires collective impact, public-private partnerships, and the democratizing power of technology to drive collaboration.
